CERAMIC SOAP

SiO² Enhanced

CLEANS, SHINES & PROTECTS

DURABLE PROTECTION

Gliptone's CERAMIC SOAP is a highly concentrated SiO² enhanced washing solution blended from gentle cleaning agents, water softeners and infused with a uniquely modified chemistry to leave residual SiO² protection on the surface. When added to water, Gliptone's CERAMIC SOAP produces a rich lather that lifts surface dirt, helps revitalize color, and produces a clean, bright finish leaving a durable protective coating. Use as part of weekly/monthly vehicle care appearance maintenance. Functions in hard or soft water. Will not streak and is very effective in the reduction of water spotting.

Part #	Description	Bottle / Packaging Details	UPC 19172	Misc. Packaging Notes
