# SOFTOUCH®

## QUARTZ CERAMIC COATINGS

### MICROFIBER TOWELS

Enlarged for detail

FOR USE WITH ALL COATING PRODUCTS

Ultra soft texture, streak-free and lint-free. Ideal cloth for removing coating and polish from any paint surface. If used for removing ceramic or paint coatings we do not recommend reusing the towel. Most coatings, including Gliptone's GT Quartz™ line of coatings could leave damaging hard particles in the cloth. Consists of 70% Polyester/30% Polyamide.
